

FALL CLEAN-UP IS TIME TO MAINTAIN YOUR HOME IGNITION ZONE BEFORE THE 2018 FIRE SEASON!

In the West and it's a matter of when, not if, wildfire impacts our community. The Teton Area Wildfire Protection Coalition encourages all residents to clear and maintain the *home ignition zone* around their residences and outbuildings. The 2017 Fall Clean- Up offers a great incentive to pick up the yard, clean out the gutters, and haul it all off to the Rodeo Grounds for collection.

Yard waste is composted locally by Terra Firma Organics. No Trash or dog poop will be accepted. Free compostable yard waste bags are available at Town Hall and the Recycle Center.

Fire Prevention and Firewise materials will be available at the Teton Area Wildfire Protection Coalition information booth Nov 4th.
